PROFESSIONAL SUMMARY

Digital transformation and automation leader with over 20 years of professional experience, spanning process automation, RPA, business process improvement, digitalisation, analytics, banking operations and enterprise technology operations.

Experienced in building and leading automation capabilities, establishing governance frameworks, developing teams and translating emerging technologies into practical business solutions. Strong advocate of agile delivery, continuous improvement and technology-enabled transformation, with experience ranging from operational process improvement to enterprise automation and AI adoption.

WORK EXPERIENCE

CREDIT GUARANTEE CORPORATION (M) BHD — Present

Transformation Office, Finance, Transformation & Operations Division

Assistant Vice President (AVP) | Head, Process Automation

- Lead the Process Automation function, managing a team of 6 direct reports responsible for driving enterprise-wide automation, process digitalisation and emerging technology initiatives across CGC.
- Led the strategic migration from Automation Anywhere A360 to Microsoft Power Platform, establishing a more scalable and integrated automation ecosystem while delivering approximately RM500,000 in cost savings across licensing, infrastructure and support.
- Spearheaded the development and deployment of 50+ business process automations using Microsoft Power Automate, Power Apps and Power Pages, supporting the digitalisation and optimisation of processes across multiple business functions.
- Established and lead the Automation Champions and Citizen Development Programme, building automation capabilities within business units and enabling employees to identify, develop and champion automation opportunities using Microsoft Power Platform.
- Drive citizen development governance and capability building, providing the framework, standards and support required for business users to develop automation solutions while maintaining appropriate oversight, quality and sustainability.
- Spearheaded CGC Agent-Thon 2026, an enterprise initiative designed to accelerate the adoption of Generative AI and AI Agents by enabling employees to identify business challenges, develop practical AI use cases and prototype agent-based solutions.
- Drive the exploration and development of AI use cases across CGC, focusing on opportunities to integrate AI, intelligent automation and agentic capabilities into business processes to improve productivity, decision-making and operational efficiency.

BECTON DICKINSON & COMPANY — 2019 - 2022

Enterprise Architecture & Design Governance, Global Automation Services

Lead, Digital Operations

- Managed over 300 bots in production encompassing various business functions such as Shared Services, Human Resource, Manufacturing, Supply Chain, Finance, Procurement, R&D and Risk & Compliance.

- Managed ServiceNow incidents in accordance with agreed SLAs, including exception handling and development and deployment of break and bug fixes.
- Maintained CMDB CI configuration management data and bot lifecycle management records.
- Monitored new bot deployments into Production, including Production Access, Identity Management and Special Configuration Management provisioning, as well as bot readiness and stabilisation for release from Hypercare.
- Developed technical bots and reusable tasks using Automation Anywhere, PowerShell and Power Automate, while managing automated Deployment Management, Active Monitoring and CHM change-ticket creation.
- Supported Automation Discovery and demand shaping while ensuring APAS, ARDS and ACRT governance requirements were completed and approved and bots complied with GxP and SOX requirements.
- Managed RPA infrastructure in Microsoft Azure Cloud across DEV, QA and PROD environments, including software/application installations, patching, upgrades and SSL certificate renewals.

RHB BANK BERHAD **2017 - 2019**

Assistant Manager, RPA Center of Excellence (CoE)

RPA Analyst / Developer / Infrastructure

- Part of the pioneer team instrumental in setting up the bank's RPA Center of Excellence, managing day-to-day RPA operations and supporting RPA processes running in the production environment.
- Served as first-level support for workflow and system incidents, including troubleshooting and problem resolution.
- Managed infrastructure setup for RPA processes across Desktop, VM and VDI environments, including UiPath package deployments, robot provisioning and process scheduling.
- Managed code using PVCS and SVN version control tools and administered bot identity management, licensing, SSL certificates and firewall access.
- Prepared process workflows and Solution Design Documents (SDD), covering requirements, risks, assumptions and dependencies.
- Developed test plans and test cases for RPA solutions and worked with SMEs to conduct User Acceptance Testing.

RHB BANK BERHAD **2005 - 2017**

Senior Executive, Credit Operations Division

Unit Head, Digitization & Support

- Managed a team of 6 FTE and 4 contract staff.
- Spearheaded digitisation initiatives and managed the electronic Document Management System (eDMS).
- Supported and administered the department's Document Tracking System (DTS).
- Explored technologies such as OCR, RFID and Intelligent Capture to enhance business processes.

Team Leader, Business Intelligence, Analytics & Special Projects

- Performed data management and analytical functions, identified and documented data requirements and extracted/profiled data from bank sources.
- Conceptualised and executed business process improvements and prepared periodic reports and presentations.
- Supported operational requirements, including ad-hoc and provisional initiatives.

Imaging & Digitization Unit

- Managed and led the custodian imaging team supporting RHB commercial business units, covering document preparation, scanning, indexing, verification and export to server within agreed SLAs.

Credit Administration, Northern Regional Office

- Performed credit administration duties including progressive release of payments to developers, liaison with land offices and solicitors, and resolution of complaints concerning loan disbursement.

HMS UTARA SDN BHD 2003 - 2005

Administrative Assistant

- Managed and coordinated day-to-day office operations, including reports, invoicing, filing, client billing, supplier and worker payments and EPF contributions.
- Introduced a computerised invoicing system that reduced claims delay time by 20%.
- Maintained relationships with government agency clients including JKR, JPS and the District Office of Barat Daya, Penang.

NC.COMM CREATIVE CONSULTANCY 2000 - 2002

English Copywriter

- Designed and implemented creative advertising campaign concepts for MNC clients including Caltex Malaysia, McDonald's, F&N Dairies Sdn. Bhd and MNI.
- Wrote proposals and reports for advertising pitches and designed presentation materials, PowerPoint and Adobe Flash presentations.

SELECTED ACHIEVEMENTS

Lean Six Sigma & Kaizen

- Participated in a 12-week Kaizen project and training programme conducted by Wipro International Ltd., identifying and eliminating waste using Lean tools including TIM WOODS, 5S, PDCA, Value Stream Mapping, Poka Yoke, SIPOC and FMEA.
- Generated savings on consumables and increased operational efficiency by 60%.
- Implemented zero-cost productivity solutions, developed a barcode generator and created a dashboard using VBA and Microsoft Excel.
- Supported other RHB divisions with Kaizen and business process automation initiatives.

Business Process Improvements

- Spearheaded a departmental Digitization Initiative covering planning, vendor selection, system requirements, UAT and implementation.
- Conceptualised a new Document Tracking System (DTS), resulting in increased operational efficiency.
- Designed and programmed 5 Microsoft Access databases supporting more than 50 users.
- Re-engineered the ASB safekeeping process using non-linear sequencing, reducing turnaround time from 3 months to 2 weeks.

CORE EXPERTISE

- **Automation & AI:** Enterprise Process Automation, Robotic Process Automation (RPA), Generative AI, AI Agents, Agentic Automation, Citizen Development, Automation Governance, Automation Center of Excellence
- **Microsoft Technology:** Microsoft Power Platform, Power Automate, Power Apps, Power Pages, Power BI, Microsoft Azure
- **Platforms & Tools:** Automation Anywhere, UiPath, Python, PowerShell, VBA, ServiceNow
- **Transformation & Process:** Business Process Improvement, Process Re-engineering, Digital Transformation, Digitisation, Lean / Kaizen, Agile, Requirements Gathering, Solution Design, User Acceptance Testing

- **Leadership & Capability Building:** Team Leadership, Automation Strategy, Automation Champions, Citizen Developer Enablement, Training & Facilitation, Technology Adoption, Automation Governance

EDUCATION

OPEN UNIVERSITY MALAYSIA **2008 - 2011**

Bachelor of Business Administration (Hons) (Information Technology)

ACHEM **1996 - 1998**

UEC (University Entrance Certificate)

MARA Overseas Sponsorship Program

SEK. MEN. KEB. SERI BALIK PULAU **1993 - 1995**

SPM Grade 1

Credits in all subjects taken and a distinction in English

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Professional Certifications

- **HRD Corporation Certified Trainer** – 2026
- **Certified Graduate Technologist** – Information & Computing Technology (IT), Malaysia Board of Technologists, Reg. No. GT21081579

Training & Certificates

- **Robotic Process Automation & AI:** UiPath Orchestrator 2018.1 Diploma; UiPath RPA Developer - SAP Automation Training Diploma; UiPath Solution Architect Diploma; UiPath Infrastructure Training Diploma; UiPath Implementation Methodology Training Diploma; UiPath Licensing Training; UiPath RPA Awareness Training; Automation Anywhere Certified Advanced RPA Professional; Introduction to AI and Machine Learning - for clients; IPsoft Amelia v3 Enablement Training
- **Data & Analytics:** SAS Programming 1: Essentials; SAS Programming 2: Data Manipulation Techniques; SAS Enterprise Guide 1: Querying and Reporting; SAS Enterprise Guide 2: Advanced Tasks & Querying; Accessing SAS from Microsoft Office Applications & SAS Enterprise Guide for Experienced SAS Programmers; Analyzing Data with Microsoft Power BI
- **Project Management & Agile:** PMI - Project Management Fundamentals; Workflows with SharePoint Designer 2013; International Consortium Agile Certified Professional (ICP)
